

WHAT WE DO

Mark Abbot has a background in Management Systems and Practises – organisational behaviour; strategy and its implementation; sustainable development in local and international markets. This expertise has been further expanded to include leadership development and governance support while still retaining an optimised business focus in terms of systems, resources and people.

Mark is a skilled facilitator and enabler; challenging the status quo and delivering aligned outcomes for projects, stakeholder groups, leadership and executive teams alike.

In the Not-for-Profit and Private Sectors we focus on enabling and extracting best performance for the long-term through:

- Small to Medium Business optimisation
- Programme / project implementation and governance
- Governance and direction, or purpose, setting
- Coaching and mentoring – senior to executive teams
- Organisational structure assessment
- Workshop facilitation including:
 - Strategy and purpose
 - business development
 - issue and uncertainty resolution
 - structure optimisation

Extensive Local Government involvement has delivered transformational change in these regulated environments through:

- Programme / project implementation and governance
- Interim executive management
- Improvement planning and review
- Governance performance
- Organisational structure assessment
- Team development
- Workshop facilitation including:
 - strategy and purpose
 - economic development
 - Long Term Planning
 - business and project planning
 - regulatory performance optimisation

With a wealth of both private sector and local government experience, Mark has successfully delivered sustainable value and change in: organisational strategy; governance; leadership and business / economic development.

A key focus is on continuous challenge and improvement resulting in both organisation and individual growth.
